➤ Interactive Lecture

Organized by

Department of Orthopaedic Surgery
King George's Medical University, Lucknow, U.P.

KGMU PELVI-ACETABULAR CME & CADAVERIC WORKSHOP 2022

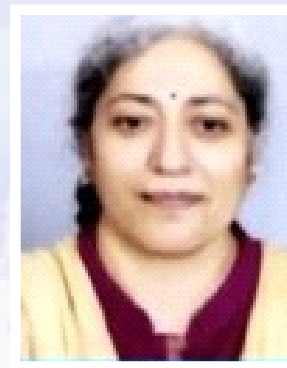

Respected seniors and dear friends,
Greeting from the Department of Orthopaedic Surgery, King George's Medical University, Lucknow. On behalf of the organizing committee, it is a pleasure to invite you to the KGMU Pelvi-Acetabular CME & Cadaveric workshop 2022 in collaboration with Department of Anatomy, KGMU and LOS, under aegis of UP Orthopaedic association. Surgery of pelvis and acetabulum is difficult due to its complex anatomy. Hands on cadaveric workshop gives a chance to get oriented to the anatomy of the region. Cadaveric dissection is the best mode of learning before embarking on live surgeries as it gives the feel of human tissues. This course focuses on imparting best scientific practical knowledge to young Orthopaedic Surgeons.
